## Objective

Highly motivated and enthusiastic MCA student with a strong passion for Full Stack Development, modern web technologies, and problem-solving. Skilled in React.js, JavaScript, C++, and responsive web development with hands-on experience building frontend and database-driven applications. Looking for an opportunity to contribute technical skills, learn from real-world industry experience, and grow as a software developer in a collaborative environment.

## Education

|                                                                                   |                             |
|-----------------------------------------------------------------------------------|-----------------------------|
| <b>Master of Computer Applications (MCA)</b><br>JECRC University, Jaipur          | 2025 – Present<br>CGPA: 8.3 |
| <b>Bachelor of Computer Applications (BCA)</b><br>Nathdwara Group of Institutions | 2022 – 2025<br>73%          |

## Technical Skills

- **Programming Languages:** C++, JavaScript
- **Frontend Technologies:** HTML, CSS, Tailwind CSS, React.js
- **Backend Basics:** PHP, Node.js Basics
- **Database Technologies:** MySQL
- **Tools and Platforms:** Git, GitHub, VS Code
- **Core Concepts:** Data Structures and Algorithms, REST APIs, Responsive Web Design
- **Soft Skills:** Communication, Team Collaboration, Problem Solving

## Projects

### Socialfy – Social Media Frontend Application *React.js, Tailwind CSS*

- Developed a modern and fully responsive social media frontend interface using React.js and Tailwind CSS.
- Created reusable React components to improve scalability and maintainability of the project.
- Implemented responsive layouts optimized for desktop, tablet, and mobile devices.
- Focused on clean UI/UX design principles and modern frontend development practices.
- Improved understanding of component-based architecture and frontend project structuring.

### Employee Management System *HTML, CSS, JavaScript, PHP, MySQL*

- Developed a role-based employee management web application with separate admin and employee panels.
- Implemented employee attendance management, leave request handling, and employee record management.
- Used MySQL database for storing and managing employee-related information securely.
- Designed responsive user interfaces for better accessibility and usability across devices.
- Strengthened understanding of frontend-backend integration and database connectivity.

## Achievements

- Solved coding and problem-solving questions on platforms like LeetCode and GeeksforGeeks.
- Built multiple frontend projects using React.js and Tailwind CSS to improve practical development skills.
- Regularly practice Data Structures and Algorithms using C++.
- Participated in self-learning challenges focused on web development and programming.

## Strengths

---

- Quick learner with strong adaptability to new technologies and environments
- Strong analytical thinking and problem-solving abilities
- Ability to work effectively both individually and within a team
- Passionate about continuous learning and improving technical knowledge
- Consistent and disciplined approach towards learning and project development
